EDUCATION

Bachelor of Engineering in Information Technology Engineering

University - RUPP
2022 - 2024

INTEREST

New Technology
Problem-Solving
Learning new things

EXPERIENCE

E-DAY I 2022 - 2023

In the freshman year, I used to be part of the competitor on a topic of Customer Billing System which I participated with a group of four people. The technology that we used were c++ with (.Net) framework in Visual Studio and for storage I use (SQL Server) to keep and query data.

PORTFOLIO I 2023 - 2024

In the sophomore year, I built my own portfolio which contains HTML CSS (Bootstrap framework) a little bit of JavaScript.

RECOMMENDATION SYSTEM I 2023 - 2024

This project I try to analyze the exist data which is csv file and used them to train the data by using the algorithm of Content Based Filtering. Technology that I used were HTML | CSS for the UI and python for the analyze in django.

SKILLS

Java	: Advance
